DIAZ HAS RESIGNED AND WILD REJOICING FOLLOWS RETIREMENT

Deposed Ruler Who is Lying on Sick Bed Greatly Saddened by Unchecked Joy of the Populace

FOREIGNERS NOTIFIED THAT THEY NEED NOT FEAR

Capital of Republic is Tranquil and De La Barra Has Taken Oath of Office--Madero Will Visit Mexico City Within Six or Eight Days.

Mexico City, May 26.—Amid scenes of the wildest rejoicing which followed on the heels of Diaz's retirement, De La Barra, today took the office of provisional president of Mexico. He pledged himself to rule only until order is restored and a general election is held.

At the same time the deposed president (Diaz) lay in bed in the palace so very ill that he may not be able to leave Mexico City. The unchecked joy of the populace over his retirement has greatly saddened the old man and saps what little vitality he has left.

The city is tranquil today. Senor Dominguez, personal representative of Madero and now head of the police and troops in the capitol district, has notified the diplomatic representatives of other powers that they may fear nothing as they desire the amicable relations to continue.

MADERO'S STATEMENT.

Juarez, May 26.—"Diaz is gone from the backs of the American people, thus removing the heaviest burden they ever bore," said Francisco Madero, Jr., when seen here today. "I shall go to Mexico City within six or eight days and have sent representatives to prepare for my coming. I too shall resign. I am no longer provisonal president, but merely a citizen ready to aid in the reconstruction of my country. If the people demand it I shall run for the presidency."

Madero was supremely gratified this morning and characterized today as the opening of a fine new year. He will keep his insurgent army together for the present and may keep it permanently as the nucleus of a new federal army.

Mexico is now really under the control of Madero. The federal army will hereafter take orders from him indirectly. It is probable that it will be federal troops which will be sent against Saltillo to force the legislature to install Madero's appointee as governor of Coahuila. The news of Diaz's resignation yesterday stopped the advance of Castro's rebel troop against the Saltillo and forestalled the rebel attack on Chihuahua.

Mexico City, May 26.—President Porfirio Diaz is dead! Long live Citizen Porfirio!

President Diaz, in a letter read by the president of the chamber of deputies yesterday afternoon, resigned the presidency of the republic of Mexico, and at 5:54 the acceptance of the resignation by the deputies was announced.

Everyone had expected an uproar and demonstration when the announcement was made, but within the chamber the words announcing the event were followed by a dead silence. The deputies seemed awed by what had taken place.

In the streets, however, black with people, every street leading to the hall being blocked, news that Diaz was at last no more the president was the signal for wild shouting and manifestations. There was no violence nor destruction of property.

On the motion to accept the president's resignation 167 deputies voted aye while two of them did not express themselves. They were Benito Juarez, a descendant of President Juarez and Concepcion del Valle. As their names were called other legislators arose and bowed their affirmation.

In similar fashion the resignation of Vice President Ramon Corral, now in France, was unanimously accepted, and similarly Francisco Leon de la Barra, late ambassador to Washington, was chosen provisional president. The latter will take the oath of office at noon today in the yellow parlor of the National Palace.

Of scarcely less interest in the popular mind was the practical assumption of military control of the federal district by Alfredo Robles Dominguez, Madero's personal representative.

Personally Dominguez commands only a small body of local rebels, but the federal garrison is under orders to make no move whatsoever without securing his approval. Senor Dominguez stated that he can bring 5000 organized rebel troops into the city within three hours. Their baggage and horses are aboard trains furnished by the government at Cuernavaca, Pachuca and Tlalnepantla. He said that they will remain at their present stations unless they should be needed in this city to control the situation.

Provisional President de la Barra acknowledged his elevation to the high office in an open letter to the Mexican people last night. In it he declares that he will not be candidate for either president or vice president when a general election is called, saying on this point:

"Though there has not yet been approved by the respective state legislatures the constitutional reform relating to no re-election, I consider it my duty to declare, as a guarantee of my purpose, that under no circumstances will I accept the candidacy for the presidency or the vice presidency in the approaching electoral campaign. The happiest day of my public career will be that on which, in the shortest time allowed by the electoral law and the situation prevailing in the country, I can transfer the office I have today received to the citizen the public elects."

On foreign relations the letter says:

"The Mexican government, respectful of the rights of other nations and zealously defending her own, will spare no effort, by means of its open and fair policy, as it has done in the past, in order that these relations may become more friendly every day, with mutual advantages, and in accordance with the principles of international law."

The entire cabinet resigned yesterday afternoon, a corollary to the retirement of General Diaz, and as such excited little interest.

President Diaz's letter of resignation follows:

Sir: The Mexican people, who generously covered me with honors, who proclaimed me as their leader during the international war, who patriotically assisted me in all works undertaken to develop industry and the commerce of the republic, establish its credit, gain for it the respect of the world and obtain for it an honorable position in the concert of nations; that same people, sir, have revolted in armed military bands, stating that my presence in the exercise of supreme executive power is the cause of this insurrection.

I do not know of any fact imputable to me which could have caused this social phenomena; but, permitting, though not admitting, that I may be unwittingly culpable, such a possibility makes me the least able to reason out and decide my own culpability.

Therefore, respecting, as I have always respected, the will of the people, and in accordance with Article 82 of the federal constitution, I come before the supreme representatives of this nation in order to resign unreservedly the office of constitutional president of the republic, with which the national vote honored me, which I do with all the more reason since, in order to continue in office it would be necessary to continue shedding Mexican blood, endangering the credit of the country, dissipating its wealth, exhausting its resources and exposing its policy to international complications.

I hope, gentlemen, that when the passions which are inherent to all revolutions have been calmed, a more conscientious and just study will bring out in the national mind a correct judgment which, when I die, I may carry graven on my soul as a just estimate of the life which I have devoted and will devote to my countrymen.

With all respect,

PORFIRIO DIAZ.

The one dramatic speech of the day was made by Deputy Jose Aspe. In introducing the president's letter of resignation, Deputy Aspe made one of the most brilliant oratorical efforts with which the chamber has ever rung. His voice was repeatedly drowned with applause and the floor fairly shook with the demonstrations which followed his preoration.

"President Porfirio Diaz is dead. Long live Citizen Porfirio Diaz." The speaker admitted that General Diaz had been called to account for his errors by a people who had progressed faster than the author of their progress had realized, but he declared the good that General Diaz has done his country would live forever in history and outweigh his mistakes.

Every entrance to the chamber and all street approaches were guarded by heavily armed mounted police. Only those who came hours ahead of time got within this cordon. They were quiet and well behaved. Outside the wall of police the throng cheered themselves hoarse, but gave the police no trouble.

To the city generally the acceptance of the resignation of the president was announced by the clangor of the bells of the cathedral and two discharges of a cannon.

For many squares on every side of the chamber the streets were black with people. Great crowds were scattered over the Pocalo, when the ringing of the bells and the firing of the cannon announced the triumph of the revolution.

As the crowds melted away after the session by hundreds and by thousands they fell into irregular marching clubs. They carried flags and banners of the national green, white and red, lithographs of Madero, laurel wreaths, brooms—apparently symbolic of the clean sweep for the rebellion—and hundreds of them carried poles and staves after the manner of soldiers with rifles.

Practically all business was suspended. Everywhere windows were shuttered, but the demonstrants of Wednesday night on Thursday had become excited but harmless celebrants.

It threatened rain during the session of the deputies, but the sun, as if in harmony with the jubilation of the populace, came out brightly almost at the moment of the historic action of the president and the congress.

On every balcony in the city, and they are a feature of every house and office building, women and children and those too infirm to be in the street, came out to witness the celebration. Many of them tossed flowers and confetti on the marching thousands.

A heavy guard of mounted police was maintained in front of the national palace, near which seven persons were killed and 36 wounded when the mob was fired on Wednesday night.

NEW COMPLICATIONS COME UP.

Juarez, Mexico, May 26—The weak spot in the peace agreement between the revolutionists and the federal government, the fact that the legislatures of the Mexican states cannot constitutionally be coerced to name as governor anyone but their own

VIEWS OF W. J. BRYAN.

New York, May 26.—While declining to discuss presidential candidates in detail W. J. Bryan, in this city today, repeated his former declaration, that Harmon of Ohio was not progressive enough to aspire to the Democratic nomination in 1912. Bryan says the entire campaign will hinge on the progessiveness.

BOUND OVER TO THE GRAND JURY

Witnesses Held in $500 Bonds for Refusing to Testify Before the Senate Probe Committee.

Columbus, May 26.—E. E. Cook, editor of the Columbus Citizen, and Charles J. Pretzman of the Chamber of Commerce were today bound over to the grand jury under $500 bond for refusing to testify before the senate probe committee.

The proceedings before Justice Postwick were merely formal. The justice overruled pleas for a continuance and the defendants pleaded not guilty. They furnished bond.

DEMOCRATIC SENATORS AGREE TO SUPPORT RESOLUTION FOR REINVESTIGATION OF LORIMER

Washington, May 26.—After four hours' caucus the Democratic senators voted, 24 to 1, to support the resolution offered by Senator Martin of Virginia on behalf of the Democratic steering commitee, providing for a reinvestigation of the bribery charges in connection with the election of Senator Lorimer of Illinois. A personal colloquy between Senators Bailey of Texas and Martine of New Jersey featured the caucus. The Martin resolution proposes an inquiry by the committee on privileges and elections.

The verbal encounter between Messrs Bailey and Martine originated in Bailey's demand for general support of the Martin resolution. Bailey declared that any senator who refuses to be bound by the caucus has no rightful place in the party councils. This aroused the senators who favor the La Follette resolution providing for an inquiry by a special committee of new senators.

Bailey contended that more than two thirds of the caucus favored the Martin resolution and it was thus the duty of all Democratic senators to abide by that decision. Mr Martine replied that, while willing to compare his party record with that of the Texas senator, he was unwilling to be bound by a party caucus on a moral question. He said he understood the meeting was a conference and not a caucus.

The colloquy continued until Mr Martine withdrew from the caucus, reiterating that he would not be bound by it on any except a political question.

Almost every Democratic Senator present participated in the debate. It developed that the regular Republicans had practically agreed to abandon the Dillingham resolution in favor of the Martin measure and all Democrats were urged to support the provision as a matter of party discipline. The caucus supported the Martin resolution, with the understanding that any senator should be free to offer amendments.

BRYAN SAYS DECISIONS OF SUPREME COURT WILL PROVE DISAPPOINTING TO COUNTRY

Lincoln, Neb., May 26—W. J. Bryan in today's Commoner editorially goes after the Supreme court. Bryan says the decision in the Standard Oil cases will prove disappointing to the entire country.

The dissolution of the Standard Oil company works no hardship when the decision is virtually a license to reorganize under a pledge of greater security. The real meat of the decision is found in the amendment of the anti-trust law to meet the demands of the trust.

For several years the trusts have been demanding that very amendment, Bryan says the decision explains much. Among other things it explains why Hughes was made a supreme court justice and why White was made Chief Justice over Harlan.

It also explains, he says, the care used by Taft in selecting Democrats who would help the Republicans out of a hole by making the Democrats bear some of the odium attached to the decision.

NYE TRIAL STILL ON--- MAY LAST TILL NEXT WEEK

Columbus, May 26—A straight warning was issued by Judge Kinkead today for witnesses not to mingle with the spectators in the court room.

The testimony of Ed Nichols, chief clerk in the state printers' office and the evidence to impeach the direct testimony of Stanly Harrison were the important developments in the Nye trial this morning. Chief Clerk Nichols testified that Nye had talked in the latter's office and that he had heard no mention of money.

Crawford had previously testified that he was absent from his office when Nye called and that the latter met Nye in a house committee room where the $500 bribe was solicited. Senator Dore was the only witness to impeach Harrison's testimony before the noon recess. The state has a number of witnesses subpoenaed to rebut the Crawford impeachment. Nearly all this morning defense's witnesses were made to admit they were opposed to Crawford politically. The jury may get the case next Thursday or Friday.

Prosecutor Turner said today that regardless of the outcome of the Nye trial the other indicted legislators would all be tried in order.

REDUCED THE CAPITAL STOCK

Columbus, May 26.—The Zanesville Railway, Light & Power company yesterday reduced its capitalization from $1,000 000 to $5,000 and the Columbus, Buckeye Lake & Newark Traction company reduced its capital from $1,500,000 to $5,000. Both of these corporations are underlying lines of the Columbus, Newark and Zanesville, one of the subsidiary lines of the Ohio Electric Railway company. The reason for the reduction is that the stocks of both of these companies have been exchanged for Columbus, Newark and Zanesville stock, and they are out of business, except that their corporate organization is maintained because of outstanding bonds.

WEALTHY BANKER COMMITS SUICIDE

New Philadelphia, May 26.—James Kaldenbaugh, a wealthy banker of this city, committed suicide today. Bad investments are supposed to have caused the rash act. Kaldenbaugh operated a private bank and was well known over Central and Southern Ohio.

TOOK WOMAN AND SON FROM JAIL AND LYNCHED

Okema, Okla., May 26.—There will be no official investigation into the lynching of Laura Nelson, a negress, and her 16 year old son who were taken from the jail here last night dragged to the Canadian river six miles away, and hanged from the timbers of the bridge. The woman was lynched from the timbers of the bridge. The woman was the first lynched in this state.

The woman and her son were under arrest on the charge of murdering Deputy Sheriff George H. Loney, who had discovered stolen goods in their home.

DATE FIXED

By Senate for Final Vote on Amendment Providing for Direct Election of Senators.

Washington, May 26.—The senate has fixed June 12 as the date for a final vote on the constitutional amendment providing for the election of United States senators by popular vote.

Senator Borah, by threatening to keep the matter constantly before the senate, succeeded in getting unanimous consent for a vote on the day named.

The Bristow substitute will be disposed of first, under the agreement. This provides simply that the constitution shall be amended to permit the election of senators by direct vote of the people in the manner in which members of the national house of representatives are now selected. Should this be defeated the vote will then come on the Borah resolution which provides for popular election and at the same time leaves to the respective states full control of the elections at which senators shall be chosen.

It is a practical certainty that one or the other of these propositions will secure the two-thirds vote necessary to insure the submission of the amendment to the states for ratification.

ILLNESS HALTS DONNELLY TRIAL

Toledo, May 26.—The trial of Judge Michael Donnelly of Napoleon who is charged with embezzlement was halted Thursday because of the death of Mrs. Jacob Prentice of Napoleon, mother of F. D. Prentice, the principal witness for the state. Prentice was called home Wednesday.

Miss Emma L. Woodward, former bookkeeper for the Ohio German Fire Insurance Company, was again on the stand yesterday morning. She identified checks for various amounts, which she testified were used to pay obligations at the Dollar Savings Bank Trust Company and the Security Savings Bank. According to the witness, she charged the amounts of these checks, at Donnelly's direction to traveling expenses and loss accounts.

The state will close its case today.

VEDRINE WON THE BIG RACE

French Aviator Pulls Down Prizes Aggregating $30,000

LONGEST RECORD FLIGHT

Spanish King Took Part in Ovation to Vedrine and Decorated Him With Alfonso Cross.

Madrid, May 26.—Pierre Vedrine, a Frenchman who today won the Paris-Madrid aeroplane race, 761 miles, with its prize of $20,000 from the Petit Parisian and other prizes of more than $10,000 is the new aviation hero.

Battling against fearful odds, in which he had to clear a mountain range nearly 5,000 feet high, Vedrine, with a patched up machine completed the last stage of his thrilling race from Burgos to Madrid, 150 miles, in two hours and 46 minutes. His time for the whole race is ten hours and 19 minutes. The best time made by railway trains between Paris and Madrid is 26 hours and six minutes.

King Alfonso took part in the ovation tendered Vedrine. The aviator was apparently stupified and was rushed to a hospital where he quickly revived.

M. Gibert, who had a thrilling mid-air battle with an eagle near Vitteria, arrived shortly after Vedrine, having flown more than 200 miles in the last stage. He had to be lifted from his monoplane.

Roland Pfl. Garros, who was forced to descend when only a few miles from San Sebastian, did not complete the race. More than 300,000 people crowded around Cetafe aeroplane to see the finish.

"I think the flight the most wonderful ever made," declared King Alfonso.

The king decorated Vedrine with the Alfonso cross usually bestowed for the advancement of science.

At the time the loss was not made public and Selewsky kept the jewels until last night, when he noticed an advertisement in the paper offering $1,000 reward for their return.

He immediately went to the nearest police station and turned the little satchel containing the jewels over to the authorities.

Detectives in Chicago, New York and Detroit have been working on the case for the past two weeks.

S.S.S. CURES ALL SKIN DISEASES

Health in its magnificence appeals to everyone, and especially is this true of a clear skin, free from eruptions and disease. We instinctively realize that back of this desirable condition pure, rich blood is flowing through the system, furnishing nutriment to all the tissues.

This perfect condition of the skin exists as long as the blood is normal, but when it becomes contaminated with humors and acids its supply of nutritive properties is greatly lessened, and it becomes a sharp, acrid fluid which diseases instead of preserving the natural health and texture of the skin. Then come Skin Diseases; the character of the eruption depending upon the nature of the humor with which the blood is infected. If there is an excess of acid in the circulation the trouble is characterized by itching and burning eruptions. Other impurities produce watery blisters, rashes, etc., commonly known as Eczema, Tetter or Salt Rheum, while still other morbid matters in the circulation cause Acne, pimples and like troubles.

Dear Sirs:—My body broke out with a rash or eruption which, in spite of all efforts to cure, continued to get worse. The itching, especially at night, was simply terrible; it would almost disappear at times, only to return worse than ever. I had tried many highly recommended preparations without benefit, and hearing of S. S. S. determined to give it a fair trial and was inexpressibly delighted when a few bottles cured me entirely, removing every blemish and pimple from my body. I shall not fail to recommend S. S. S. whenever an opportunity occurs to do so.
Escondido, Cal. L. MARNO.

It is right and proper to get what relief one may from the application of washes, salves, etc., but such treatment should not be depended upon alone to produce a cure—only a thorough purification of the blood can accomplish this.

S. S. S. cures Skin Diseases of every character and kind, because it purifies the blood. It goes down into the circulation and removes the humors and acids, builds up the weak, acrid blood, and completely cures Eczema, Tetter, Salt Rheum, Acne, pimples, rashes, eruptions, and all skin affections. When S. S. S. has cleansed the blood of the impurities the skin is nourished with rich, cooling blood, the tissues and fibres are strengthened, the pores and glands are stimulated to their full duty, and every symptom passes away. Book on Skin Diseases and any medical advice free. S. S. S. is for sale at drug stores.

MARION WON LAST GAME OF SERIES

Newark's boosters day proved disastrous for the success of the Molders on the diamond Thursday for with five hundred people, or thereabouts, on the ground Al Newnham's sluggers failed to slug and the team was copped by Big Chief McCall, for the aggregation representing Marion on the baseball map.

McCall must have worked the old Indian sign on the locals for his offerings as viewed from the press box had nothing on them to fool the hitters who slugged the ball like the Newark bunch did Wednesday. It was difficult for the Newark men to hit the ball and it was still more difficul to hit it safe. After the first frame when a single and a double netted two runs, McCall allowed but three hits. A few errors helped the locals and they were enabled to garner three runs on the five bings which they totaled in the entire game.

As for the Marion score, it was without doubt due solely to the neglect of some one to pull Kline. The big sorrel topped heaver was in poor form. He was wild and had no smoke and but few curves.

Every victim who fell before his pitching was the result of a mighty effort.

Apparently the elongated pitcher was suffering from the intense heat he perspired freely during the game and his uniform was wet long before the end of the game was in sight.

Kline "came back" however, in the last two frames after it was too late to win and kept the victorious diggers hitless and scoreless until the end.

Al Linderbeck was the star of the game with the willow stick. He was credited with two hits. One was a clean homer. The ball was a long hit to center field. Rudolph misjudged it for an instant and was unable to get under it. The ball sailed far over his head and rolled to the big Bull Durham sign. Lallier was on the paths ahead of Lindy and the two men scamped across the rubber. Ruddy would have been unable to get under the ball even if he had not misjudged it but it might have been possible to hold Linderbeck at third.

In the field several brilliant plays were pulled off. It was a great day for the middle and left gardners. For Marion Colligan had four fly balls to his credit, Meehan in center had four. For Newark Baggan in left had five while Rudolph had six. Wiley had none and Linderbeck, Marion's right fielder, muffed the only chance he had during the game. This made 19 outs out of a possible twenty for the six outfielders.

Baggan's good record was no doubt due largely to the sunglasses he wore during the game. He copped one fly after the other yesterday, where in previous games he was compelled frequently to dodge the fly balls which he lost in the sun.

Colligan also used the glasses with evident success.

Newnham had an off day in the short field, missing two easy chances. One was a fly ball from McCall's bat in the second and the other was a muff of a short throw by Prysock after the crack second baseman had made a sensational stop of Smith's sure hit.

Kline's error was on a wild heave to first after fielding an ugly roller which dropped in front of him. Colligan foozled a safe hit from Baggan's stick allowing the runner to take second. Linderbeck dropped an easy one from Baggan's bat in the third while Kelley at first missed two easy throws.

Newark scored two in the first after Baggan had fanned. Newnham was hit by McCall and scored on Rudolph's safe smash to deep left. Ruddy himself trotted home on Blue's timely single to left back of short.

In the sixth, Rudolph got a life on Kelly's muff of Weller's pretty throw and went to second on McCall's balk. He scored on Wiley's clean drive to center.

Lallier's single, Meehan's double and Linderbeck's sacrifice fly scored Lallier for Marion in the first.

In the third a walk, a hit and another base on balls filled the bags and Hummell was hit a stiff wallop in the back by one of Kline's wild ones. This forced in one run.

In the fifth, Meehan walked, Linderbeck got a life on Kline's error and Meehan got across the rubber on Meenan's successful operation of the squeeze.

Lallier opened the seventh with a single and was sacrificed to second by Meehan. Linderbeck drove the ball over Rudolph's head for one good for the circuit and both men scored. This ended the scoring.

LAJOIE MAY BE OUT FOR GOOD

Cleveland, O., May 27.—The condition of Larry Lajoie, the second baseman of the Cleveland baseball team, and the team's mainstay as a hitter, is much more serious than was supposed, and it may be a long time before he rejoins the team.

Dr. M. H. Castle, the club physician, made a thorough examination of Lajoie today, and said that the strain from which Larry has been suffering may develop into a serious rupture unless Lajoie takes the best kind of care of himself.

Dr. Castle ordered Lajoie to keep very quiet for a time and told him that he must not even walk on rough ground. A serious operation would be necessary, Dr. Castle said, unless the great ball player followed orders. It is feared he may never play again.

Shoes at Cost Plus 5 Per Cent.

Not Only a Low Profit Over Cost, But a Low Profit Over a Low Cost.

Have You Ever Wondered Why Most Good Shoes Come From Massachusetts?

A traveller in Switzerland saw a child of twelve doing a wonderful piece of embroidery and marvelled at the proficiency of such youthful fingers. "It isn't surprising," said his guide. "That girls' parents, grandparents and great grandparents, back as far as she can reckon, were all lace or embroidery makers. They do nothing else in this valley. The best of the world's best needlework comes from here."

The Regal Shoe Company Has Long Been the Leader

In that section of Massachusetts where Regal Shoes are made, shoemaking has been the principal industry for more than two hundred years. The best shoes made in the world come from this section, and it has been the Regal policy from its beginning to make Regal Shoes lead all the rest in *quality-for-price.*

To lead in *both* quality and low price is harder than to lead in either alone. It is easy to get quality—if you don't care what it costs—but to give that quality at a low price means the highest degree of science in manufacturing in large volume, and straight-line, economical, direct, selling methods.

Why Regal Manufacturing and Selling Costs are Low.

To begin with, the Regal factory equipment is perfect. The Regal manufacturing system is a marvel of economy. The Regal cost-accounting, for example, shows the cost of over two hundred operations and more than one hundred parts on every shoe turned out, down to *a hundredth of a cent.*

But most perfect of all is the Regal, direct-line *selling* system—the Regal's own, although copied to some extent by other manufacturers. Regal Shoes go direct from the factories to *you* by the straightest, most economical route, cutting out jobbers, middlemen and large retailing profits. There is no lost motion, no lost time, no "overstocks," no unnecessary expense, anywhere.

And Regal Shoes are now sold at cost of manufacture, plus five per cent. commission, and this low cost of selling.

Regal Shoes are the only shoes priced in this way. It is the only scientific, economical, "square deal" way of selling shoes. You gain not only by the low margin of manufacturing profit but by the fact that this low margin is reckoned on a *low cost.*

Buying shoes as you buy other necessities of life

When you buy sugar, flour, eggs, beef, lumber—or any one of a dozen necessities, you pay a price reckoned on the wholesale market cost. If the wholesale or manufacturing cost goes down, the retail price goes down. If it goes up, the retail price goes up in proportion. When the retailer's profits are fair, this is fair to you. But this is not the way that shoes have been sold. Shoes have always sold at fixed, "even money" prices—always multiples of the half dollar.

But Regal Shoes hereafter will be sold in the scientific, economical way—with the profits kept low and the manufacturing cost as the basis.

This Stamp is your guarantee of the lowest possible price

The price of every Regal Shoe is now reckoned at 5 per cent. over actual cost, plus the cost of getting the shoe from the factories to you. This price is CERTIFIED BY PUBLIC ACCOUNTANTS AND STAMPED ON THE SHOE AT THE FACTORY. It is stamped just as it figures out—in "odd" prices or in "even" prices—and the old-fashioned *arbitrary* custom is done away with.

The stamp is your guarantee that the price is THE LOWEST FOR WHICH A SHOE OF THAT CHARACTER CAN BE BOUGHT, that nothing has been added to conform to shoe-trade custom, that MORE of the price goes into quality and LESS for profit and expense than in any other make you can buy.

Regal Prices Are Now $3.35 to $5.85

Constipated all His Life Now Cured—Trial Free

One of the most harrassing of troubles, though fortunately not fatal, is constipation, and millions of people suffer with it from infancy to old age. Its cause may be traced to any one of a dozen different circumstances of diet, environment and even birth.

Millions are practically born with constipation. Had they used intelligent methods at the beginning perhaps they would have found relief, but they had the usual misfortune of bad advice. They tried dieting, stewed fruits, then laxative waters, then pills and various other cathartics, and so in the end made matters worse. But there is still hope, even for the seemingly hopeless.

Have you ever tried Dr. Caldwell's Syrup Pepsin? It has been on the market for many years and is as staple in the households of those who know its value as salt and sugar. It is a liquid laxative-tonic that you can buy of any druggist at fifty cents or one dollar a bottle, the latter being the family size. But if you prefer to learn its value personally before buying, then send your name and address to Dr. Caldwell and he will promptly send you a free sample.

It is without doubt the best laxative for constipation that you can find, and in every way the best remedy for that and headaches due to constipation, indigestion or dyspepsia, heartburn, drowsiness after eating, gas on the stomach, biliousness and similar troubles. It is a mild, gentle remedy free from griping and bad taste. Children take to it readily. It is a standby in the homes of Mr. George W. Zimmerman, of 1617 N 6th St., Harrisburg, Pa., Robert Atkinson, Sr., of Cuba, Ill., and thousands of others.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B Caldwell, 541 Caldwell building, Monticello, Ill.

DUMPED INTO STREET WITH BROKEN BOTTLES

Driver of Milk Wagon Meets Injury When Wagon Overturned on Central Avenue This Morning.

Hurled head long into a mass of broken milk bottles when his wagon was overturned Clay Mast, age 16 years, son of Mathias Mast, a milk dealer, of 229 North Fourth street, suffered severe injuries this morning about 10 o'clock.

Mast was driving the wagon covering his usual route. About half way between Granville and Hoover street on Central avenue, he attempted to turn his horse but the wheels were cramped under the wagon and the vehicle overturned.

Dozens of bottles of milk were dumped into the street and many of them were broken. Young Mast landed in the midst of the pile and sustained many scratches and bruises and cuts about the head, face and arms. One ugly gash was made in the back of his head which required the services of a physican. Dr. W. S. Turner was called and took several stitches in the cut.

The horse attached to the wagon was unusually gentle and it is not believed that it attempted to run away. The wagon was badly damaged in the accident and besides the injuries sustained by the driver there will be considerable of a loss to the milk depot in damaged bottles and spilled milk.

After the accident young Mast was taken to his home where he will be confined several days recovering from his experience.

Expensive Catarrh Doctoring Sensibly Avoided. Relief Certain and Cheap.

Nasal catarrh is both dangerous and embarrassing. Here is a treatment which promptly cleans, soothes and heals the nasal passages while destroying all putrid, slimy matter and preventing its further formation. Obtain of any well-stocked druggist two ounces of antiseptic vilane powder. Use a half teaspoonful to a pint of warm water. Snuff up into the nostrils 6 or 8 times. Apply two or three times daily and catarrh will vanish. Also make a balm by mixing a teaspoonful of vilane powder with one ounce of vaseline. Apply this balm to the nostrils twice daily and soon all trace of the embarrassing annoyance will be gone. Gives a delightfully clear feeling and makes breathing easy.

Mrs. Daniel Altshool entertained the members of the Thursday Afternoon Bridge Club at her home in Hudson avenue on the club day of this week. Several tables filled with players enjoyed the game and at its conclusion the souvenir was awarded to Mrs. Frank Webb.

A luncheon was served the members.

Liver Cheese. Soak a lamb's liver and heart in cold water until the blood is disgorged. Wash thoroughly; place in a deep stewpan with a calf's tongue (or three lambs' tongues) and a half pound of fresh, lean pork. Tie up loosely in a thin bit of muslin five cloves, six allspice berries and a half bay leaf. Add this to the meat with a scant teaspoonful of salt and a dash of cayenne. Pour over barely enough boiling water to cover and simmer gently for four hours. Discard the tubes, all the fat and gristle and put the meat through the food chopper. Add more salt and pepper to taste and just enough pot liquor to moisten. Pack in a greased, straight sided pan, cover with a plate and small weight and let stand in a cold place for twenty-four hours. Slice for luncheon.

Angel Parfait. In a saucepan put one-half of a cupful of granulated sugar and five tablespoonfuls of boiling water; stir until the sugar is dissolved, then put the spoon away and boil slowly but steadily, until the syrup will spin a thread at least half an inch long when a fork is dipped in it and then held up to drain. Take quickly from the fire. Have ready the whites of three eggs whipped to a stiff dry froth. Pour the syrup slowly in a fine stream over the whipped whites, beating all the while; continue to beat until the mixture is cold, then add one teaspoonful of vanilla and one pint of thick sweet cream which has been whipped to a solid froth. Mix carefully but thoroughly; turn into mold with a tightly fitting cover. Bind the edges with a narrow strip of muslin which has been dipped in melted butter or lard and bury in ice and salt for fully four hours before serving.

TESTS FOR THE BIG MOTOR RACE AT INDIANAPOLIS

Motor Speedway, Indianapolis, May 26.—Before the start of the elimination trials for the 500-mile international sweepstakes to be run here next Tuesday, announcement was made this morning that the two F. A. L. cars entered in the big race had been withdrawn. The Cole car, to have been driven by Johnny Jenkins, was also withdrawn, the manufacturers stating they could not get the cars ready for the trying speed tests today.

To qualify for the big race, each of the forty-three entries remaining must show a speed of 75 miles an hour for a quarter of a mile from a flying start. The tests will be made down the home-stretch straightaway. Starter Wagner declared there would be but one trial for each machine. The drivers will be permitted to "warm up" their cars and then will make one dash for qualification.

Louis Strang in the Case car No. 1, was the first driver to face the tape.

SUPERFLUOUS HAIR

Why Not Shave It Off? If You Do It Right, It Does It Better Than Most Depilatories.

You might just as well shave as use a pasty substance which is to be applied to remove superfluous hair. This simply removes the surface hair; therefore the effect is the same as shaving, only the razor is more convenient and takes it off cleaner. Of course, it does not matter which way you do it; you only remove the surface hair, which will return stronger after each removal. The same applies to other worthless compounds and so-called "liquid cures." De Miracle is not like these; it is the only method that gives proof that it is absolutely non-poisonous, safe and sure. You are not asked to buy it on our BARE WORD. It is the only preparation of its kind which is endorsed by physicians, surgeons, dermatologists, medical journals, prominent magazines and newspapers. Remember, the longer you use such treatments as those referred to above the stronger the hair will grow and the harder it will be to remove it. De Miracle is sold at all good stores including T. J. Evans' drug store.

No honest dealer will offer you a substitute on which he makes more profit.

We will send you a 52-page booklet containing full information concerning this remarkable treatment. You should read this booklet before you try anything. Write to the De Miracle Chemical Co., Dept. R-11, 1905 Park Ave., New York, simply saying you want this booklet, and it will be mailed, sealed, at once.

Note—All readers of this paper who are afflicted with superfluous hair growths are strongly advised to write for information concerning this wonderful method, which is endorsed the World over by eminent authorities, who have made a lifelong study of this subject.

THE FARMER AND TAXATION

According to figures given out by the Agricultural Department, the value of farm products for 1910 approximated $10,000,000,0000. This is a value $100,000,000 greater than the yield of 1909. This staggering output shows that our fertile soil, no matter how far we may extend our manufacturing and trading activities, must always remain our chiefest asset. The farmerss have paid the cost of wet nursing all other infant industries into a condition of vigorous maturity. The diversions of labor from farms to factories has been so great as to bring about a near approximation between the capacity of consumption and production of farm products excepting the cotton crop. Is it not time that the farmer, who has fostered all other industries, should have his innings? He does not ask for protection; he can protect himself. All he asks is a square deal, permission to hoe his own row unincumbered by bloodsucking taxation for favored interests.

The fact has become well understood that Senator Lorimer's seat, which was purchased for him by the Lumber Trust, cost the round sum of $100,000. Now the Senate is taking another hitch at the effort to throw him out. But before this is done the suggestion is made that the Senator should go before the Senate Finance Commitete and speak his piece against Canadian reciprocity.

Granville, May 26.—Five college records, two of long standing, were broken in the annual field day interclass contest here Thursday afternoon. The meet was one of the most successful held at Denison for several years. The entire program was well carried out and especially beautiful were the coronation exercises on the Shepardson campus preceding the meet.

At 1:30 p. m. a procession of girls, bearing flowers, marched from Stone Hall, followed by the Queen, Miss Goodheart, and her maids-of-honor. Prof. R. S. Colwell acted as bishop and R. R. Weaver as herald. After a short and impressive ceremony the royal party repaired to Beaver Field. A pavilion had been arranged for the queen and attendants from which the trophys were presented to the victors after the contest.

The result of the meet was as follows:

100-yard-dash: Rupp 1st, Phelps 2d, Coe 3d; time 10 1-5 sec. This lowered Beasley's record made in 1882.

The first part was made up of impersonations by Mr. Hoppe and songs by Miss Marion Rose. At 2 o'clock in the afternoon the grand march will start from the gymnasium. During the afternoon each class will be represented in costume dances, tennis or races. There are a number of new features on the program which promise a more attractive carnival than has ever been given before. In the evening Founder's Day will be celebrated and a musicale will be given in Recital Hall as an appreciation to Mrs. E. S. Shepardson.

DENISON CLASS REUNIONS.

Among the events of commencement week, none will be more important and interesting than the class reunions. The class of 1908 will hold its first triennial reunion this year, and the committee in charge, consisting of Misses Marguerite Jones, Lottie Grandstaff, Addie Slack, Olive Rusler, Mrs. Elsor Heater and Mr. Theodore Johnson, have made plans for a successful reunion. While a large number of the members of the class are scattered as to make a return impossible, the prospects are good for a large attendance.

VISITING OLD FRIENDS.

Mr. and Mrs. James W. Hartman, former well known residents of Licking county, residing several miles south of Granville, but who have been making their home in Iowa for the past twenty-two years, have been visiting old time friends and relatives in this vicinity during the past week.

FREE BOOK ON PILES

Tells How To Cure Them With Internal Medicine.

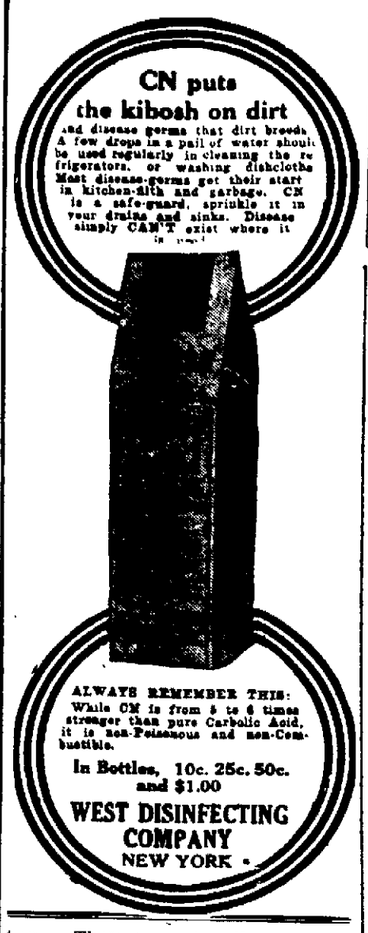

Do you know the cause of piles?

Will salves, suppositories or cutting remove the cause?
How can one be cured permanently?
Do you know how Dr. J. S. Leonhardt found the cause and cure?
All these questions answered fully in a booklet mailed free by Dr. Leonhardt Co., Station B, Buffalo, N. Y., or at W. A. Erman & Son, and druggists everywhere, who sell the successful remedy, Hem-Roid, under guarantee, at $1 per large bottle.

COASTERS AND EMBLEM PINS

"Coasters" and emblem pins for women are the two latest novelties seen in the Haynes Bros.' jewelry store at 7 North Park place. Coasters are very useful as well as ornamental. They are used on the table to set your glass of ice water, ice tea or other cold beverage on to protect the tablecloth from the moisture. They come in silver and in nickel with the bottom of glass; the nickel ones are 25c each, while the silver ones are 75c.

The "Emblem Pins for Women" are a very clever idea. They are for the mothers, wives, daughters and sisters of lodge men, and are mighty attractive ornaments. When traveling or among strangers the wearing of these pins will often afford women much protection and courtesy.

These articles will make gifts that will be appreciated at any time. Haynes Bros. have numberless articles and suggestions for ideal commencement presents. 23-3t-eod

NINE ARE GRADUATED.

Marysville, May 26.—The annual commencement of Richwood high school occurred last evening. The class was composed of seven boys and two girls. The class address was given by Wm. McK. Vance, superintendent of the schools of Delaware. The Ziegler-Howe orchestra of Columbus furnished the music.

GOOD ROADS FEDERATION

To a committee of 20 representing the Ohio Good Roads Federation, which called on him a few days ago, Governor Harmon gave unmistakable evidence of being kindly inclined toward the McGuire and Hudson good roads bill, which are up to him for signature

In the conversation which took place in the conference, the Governor not only asked many pertinent questions but also advanced several arguments in favor of the Hudson and McGuire bills.

Without doubt the governor will sign his name to these important pieces of good roads legislation because the Democratic state and national platforms contain pledges for the support of state and national aid for good roads. Then, too, the demand in Ohio for each legislation has been so persistent and is represented by so many different interests that the state's chief executive would hardly turn a deaf ear.

At a meeting in Columbus of the executive committee and the advisory board of the federation, it was decided to enlarge the scope of the proposed educational campaign, in addition to sending broadcast literature concerning reasons for good roads and how to build them, lectures will be furnished for county meetings, sessions of agricultural societies and in fact wherever wanted.

As soon as Governor Harmon makes law of the McGuire and Hudson bills, Ohio will have joined the procession of progressive states which have entered upon an epoch of industrial agricultural and commercial growth because of improvement of old and construction of new highways.

For years Ohio has used most of the $4,000,000 expended on roads, for road repair rather than road construction. This has been mere waste. Legislation recently enacted by the General Assembly means a saving to the people with increased results. It means better roads in Ohio, built with less burden to the individual taxpayer and better conditions in general.

A specific for pain—Dr. Thomas' Eclectic Oil, strongest, cheapest liniment ever devised. A household remedy in America for 25 years.

JOSEPH IRELAND.

Joseph Ireland, son of Joseph and Mary Ireland, was born April 4, 1856; died March 22, aged 54 years 11 months and 18 days. He was married to Dora Smith by Rev. R. Callaghen, January 26, 1882. Mr. Ireland was converted and united with the M. E. church about 31 years ago. He afterward has his membership transferred to the U. B. church and was till a member of the Jacksontown society at the time of his death. He had a stroke of paralysis September 21, 1910, but partially recovered until about Christmas and from then on he gradually grew worse till the end came.

He was a patient sufferer, was strengthened in his affliction by divine grace, was upheld by God's spirit and was made joyful in hope even to the clapping of his hands. His father and sisters proceeded him to the spirit world. A devoted wife, a true mother, a half brother, a foster son, a nephew and a vast concourse of friends are in mourning today.

Dearest husband thou has left us
Here thy loss we deeply feel,
But 'tis God who hath bereft us,
He can all our sorrow heal.

A Stuart's Tablet not only aids digestion but it actually does the digesting itself. In other words it furnishes exactly the same elements for the digestion of food as the natural juices of the stomach. The stomach, therefore, is not called upon to do any of the work except to churn the juices furnished by the tablets and then push the digested food along into the intestines where it will be still further digested and the strength taken up by the blood to be carried to the muscles and nerves of the body.

So by taking a Stuart's Dyspepsia Tablet after a meal you give the stomach the rest it needs in which to mend itself and grow well again. And you absolutely prevent the souring of any food, the formation of any poisonous gases, belching, foul breath or constipation.

Stuart's Dyspepsia Tablets have done more for humanity and have caused more rejoicing than any other one agency that can be named.

Every druggist everywhere sells and personally recommends Stuart's Dyspepsia Tablets. The price is 50 cents per box. If you first wish to try them a sample package will be sent you free if you write to F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

DIAZ RESIGNED

(Continued from Page 1.)

choice, loomed large yesterday when it was reported that the legislature of the state of Coahuila had refused to install Senor Venustiana Carranza, Madero's choice for provisional governor.

What happened in Coahuila, it is pointed out, may happen elsewhere, and though Senor Madero, in explaining the situation last night, indicated that the federal government, headed by Senor De La Barra, would co-operate with him in influencing the legislatures to pick the chosen Maderistas, resistance was not altogether impossible.

In the action of the legislature of Coahuila in rejecting Senor Carranza and suggesting two other names, Senor Madero sees nothing but an attempt to install a friend in the governorship.

"The members of the legislatures," he declared, "though they should be elected by the people, really never have been and they have constituted heretofore merely machinery by which General Diaz has put his governors in charge. We will change all this in time, but for the present we must place in power the provisional governors of our party.

'Senor Caranza is the popular choice of the people I have given orders to our troops in the vicinity of Saltillo, the capital of the state of Coahuila, to march on the city if necessary, but I am sure the federal government will co-operate with us in making the legislature respond to the real will of the people."

The trouble over choosing governors was not wholly unforeseen by the rebel leaders and caused them to advocate the retention of the entire insurrector army until all the provisional governors desired by the Maderists are installed.

Some were inclined to see in the affair at Saltillo the initial outcrop of the expected Cientifico question The Cientificos are said to have strong partisans in the state of Coahuila and rebels leaders here openly charged that money had played its part in blocking the election of Senor Carranza.

Should the legislature continue to resist the demands of Madero the procedure will be the entry of the insurrecto army, perhaps with the permission of the federals, and the arrest of the members of the legislature, Senor Carranza being declared provisional governor.

Senor Madero announced yesterday that his brother, Raoul Madero and General Viljoen, the veteran of the Boer war, would lead an expedition to Lower California to silence the Socialists there. About 700 men and artillery will be taken.

Frederico Gonzales Garcia, hitherto provisional secretary of state, and Senor Manuel Urguide, provisional secretary of communications, left last night for Mexico City, where they will take the posts of subsecretary of gobernacion (interior administration) and subsecretary of communications, respectively, in the new cabinet which is expected to be installed on Saturday.

Washington, May 26 – There will be no withdrawal of troops from Texas in the near future despite the resignation of Diaz and prospects of peace in Mexico This was stated in the war department today. If Major General Wood can carry his point they will remain at San Antonio until next winter.

While a hopeful view is taken here of the Mexican situation neither army officers nor state department officials are convinced that the end is in sight. The principal reason for retaining the troops however is said to be General Wool's determination to keep the division assembled until it has learned enough of practical value to make the mobilization worth while. It is said here that it costs no more and sometimes less to keep the troops mobilized than to keep them in barracks.

LARGE INCREASE IN ACREAGE OF LICKING CROPS

Corn, which is one of the staple products of Licking county, will show a large increase in the acreage planted this year and also in the production. In 1910 there were 48,500 acres planted to corn, which yielded 2,000,000 bushels of the cereal. The indications are that the acreage for 1911 will be increased fully 12½ per cent, while the production will probably be increased very largely, as all the conditions thus far are very favorable in Licking county. A bumper crop is looked for.

The prospect for vegetables and berries has greatly improved during the past few days, owing to the several fine rains we have had, and there will likely be fine crops.

As to fruits, there never was a finer outlook for all varieties. The trees are loaded with bloom, and unless blighted by June frosts there will be one of the largest crops of fruit ever gathered in Licking county.

MURPHY LASTED FORTY SECONDS

New York, May 26.—Knockout Brown, the little East Side lightweight, stopped Tommy Murphy of Brooklyn last night in 40 seconds of the first round of a bout scheduled to go 10 rounds before the Madison Athletic Club.

There was no preliminary sparring. The men were together with a rush, the awkward Brown letting loose and swinging his right hand for the ribs. Murphy poked out his long left and for a moment straightened up Brown. Knockout, however, carried the fight to Murphy, rushing him along the ropes to a neutral corner. Both men clinched and swapped rights and lefts to head and body.

Breaking away, Brown again rushed, and, catching Murphy a right in the stomach, brought him down almost to his knees. Quick as a flash, Brown ripped in a wicked left uppercut, fairly on the long, protruding chin of Murphy, and he went down with a crash.

Murphy fell like a plummet, but quickly rose to his feet, not waiting for the referee's count. Brown was at once upon him again and with a terrific right to the head and another left uppercut, he again floored the Brooklyn man.

There was no need now for the count. Murphy was out and Brown a moment later was on his way to his dressing room.

WAR SERVICE MEDALS IN LITTLE DEMAND

Many years ago, under an act of congress, the State of Ohio contracted for and procured medals for her some 1500 veteran soldiers of the Civil war. Veterans are those who re-enlisted in the field at the close of their three-months period of service.

Only a small number of these medals were distributed, 1337 still being uncalled for. They are kept at the adjutant general's office. General Weybrecht is taking steps to find the owners of the medals.

Each medal bears the name of the veteran, together with that of his company and regiment. If the veteran is not living, his nearest relative may claim and receive the medal.

The medal is made of bronze, is about the size of a silver dollar, and is displayed on a red, white and blue ribbon. The medals were made from old cannon and were turned out for the state by a New York firm.

OFFICIAL CALL BY GEN. AXLINE

General H. A. Axline, commander of the Department of Ohio G. A. R., has sent out his official call for the observance of Memorial Day. Each Grand Army post in the state is urged to take active part in the exercises of the day and to make certain that the grave of every departed comrade is properly decorated with flowers and with an American flag.

The general further says: "By all means do not fail to provide some arrangement for the school children to have and to take some part in the exercises of the day. To whatever degree we can interest the boys and girls of the present to honor the memory of our heroic dead, to that extent we are teaching loyalty and good citizenship and safeguarding the future of our Republic."

Posts are requested to arrange to have divine memorial services on the Sunday preceding Memorial Day, with the entire membership attending in a body.

GOOD NEWS FOR CATARRH SUFFERERS

So many hundreds of catarrh victims who have taken the HYOMEI treatment, have written thanking us for publishing our method of taking the HYOMEI vapor treatment in connection with the inhaler that we gladly publish it again.

The vapor treatment is especially recommended in stubborn cases of chronic catarrh of long standing, but remember that the inhaler should be used daily as usual.

This treatment takes five minutes time before going to bed. Pour a teaspoonful of HYOMEI into bowl of boiling water, cover head and bowl with towel and breathe for several minutes the vapor that arises

You will be surprised at the result of this treatment; it makes the head feel fine and clear; you will sleep better, and that stuffed up feeling will gradually disappear

This method wil break up the worst cold in the head in one night

A bottle of HYOMEI cost 50 cents at Evans' Drug store, who guarantees it. Complete outfit, which includes the little pocket inhaler, costs $1.00.

No stomach dosing; just breathe HYOMEI and cure catarrh and all diseases of the breathing organs Free trial bottle by addressing Booth's Hyomei Co., Buffalo, N. Y.

This salesman bought a Brush Runabout with his own money

It made him more valuable to his firm.
It helped him to see more customers,
sell more goods, and earn more money.

It really didn't cost him a cent—since the money allowed him by his firm for livery and carfare not only paid for the operation of the car, but left him enough money to refund the original purchase price within a year.

When his firm learned of it, they equipped all their salesmen with Brush cars—and increased their sales and earnings thereby.

This experience has been duplicated by a number of firms. The Fox River Butter Co., for instance, bought forty Brush cars in one shipment for its salesmen.

The Brush is used by men earning less than $1,000 a year and by men whose annual income exceeds $20,000.

It is used in business by corporations, merchants, physicians, contractors, architects, artisans—by men in every walk of life—and for pleasure by every member of their families.

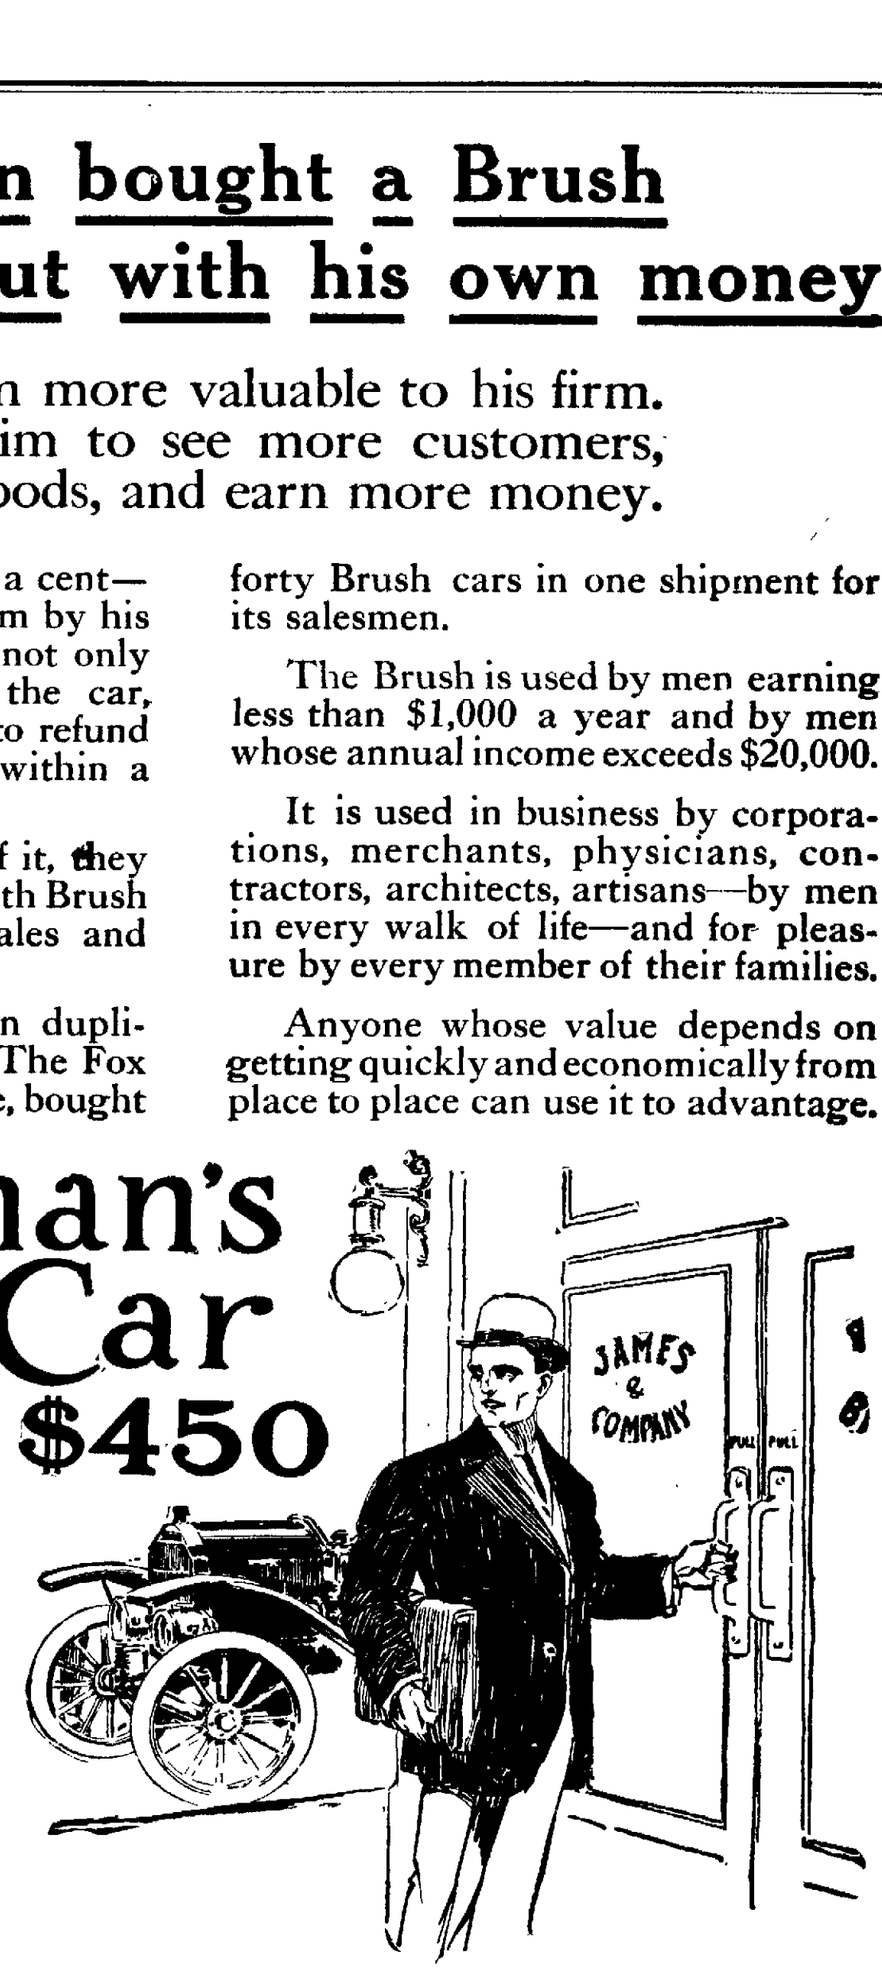

Anyone whose value depends on getting quickly and economically from place to place can use it to advantage.

Everyman's Car

The Brash Runaboat

$450

The dependability of the Brush has enabled it to hold the regard of these users as few cars do. Its simplicity makes it possible for a child to drive it. Its durability and adaptability to a hundred uses—more than its economy and low costs—have made it known as Everyman's Car.

Let us give you a ride.

WHAT ARE YOU DOING

For the Old People?

It may be your father, your mother, your grandfather or your grandmother who is very dear to you, but it is sad to see them lose their interest in life because their strength is fast ebbing away and they seem doomed to the weak, feeble and decrepit condition of the aged.

Now is the time for you to come to their assistance.

Call at our store and get a bottle of Vinol, our delicious cod liver and iron tonic, without oil, and see what a change it will make in your dear ones.

A case is recorded in Litchfield, Ill., of a man 72 years of age who seemed to be getting old and feeble, suffered from indigestion and a nervous trouble. His druggist asked him to try Vinol at his risk. He did and says he is better and feels younger than he has for fifteen years.

We wish every feeble aged person would try a bottle of Vinol with the understanding that their money will be returned if it does not give perfect satisfaction. F. D. Hall, druggist, Newark, Ohio.

ASCENSION DAY SERVICES FOR KNIGHTS TEMPLAR

St. Luke's Commandery Marched in a Body to Fifth Street Baptist Church—Social Session Followed.

Thursday, May 25, was Ascension Day, and St. Luke's Commandery No. 34 Knights Templar, of this city, observed it by attending divine services at the Fifth Street Baptist church.

The Knights met at the asylum on West Main street at 7 o'clock and marched in a body to the church, where seats had been reserved for them.

There was a fine musical program, and the Rev. Mr. Bennett, pastor of the church, preached a very able sermon, taking his text from the 24th chapter of St. Luke, the 50th and 51st verses. His subject was on "The Ascension of Our Lord and Its Effect on Christian Knighthood.

In the beginning he pictured the walking of Christ after the resurrection, with the Disciples to Bethlehem, and said that he was invisible to human eyes, except to those of his disciples. That he passed through the gates through which he had carried the cross. He offered a prayer at the place where he was betrayed and wept at the place where he had raised Lazarus. He pictured his ascension into heaven, his reception by the innumerable hosts of heaven and his taking his seat at the right hand of God; that he was still alive, sent his angels to his disciples to comfort them with that thought.

He gave a short history of the origin of Knighthood and said that the Knights were the defenders of the Christian religion but that they should be in close touch with Christ. He spoke of the necessity of knowing Christ and said that the American missionaries had done more among the Moslems in twenty years with the Bible as their weapon than the Crusaders did in 200 years with their swords, because the missionaries knew Christ and his method of working. He then spoke of contentment; that the Crusaders were discontented because the cross on which Christ died and the tomb in which he was buried, were in the hands of the Moslems; that contentment, generall speaking, was not right so long as there were evils to combat; that a supineness in dealing with evil was wicked. In the course of his remarks the Rev. Mr. Bennett used several illustrations, showing what great advantages had been derived from discontent of the people with existing conditions, which they believed inimicable to their welfare, emphasizing the fact that had it not been for the discontent of the Crusaders the flag of Mahomed would now be floating over the entire world. He urged it upon the Knights that it is their duty, as defenders of the Christian religion, as true men, citizens and patriots, to serve their God in a manner that will be the carrying out of the teaching and principles of Christ; that as true Knights they would be true Christians. They should know Christ to live with and for him.

At the conclusion of the services the Knights, with their ladies, repaired to the asylum, where light refreshments were served and a short social session was had.

THE BLERIOT AEROPLANE

Loaned to G. A. Ball & Son by Regal Shoe Company.

Have you seen the Bleriot monoplane in the west window of the G. A. Ball & Son shoe store, at 17 S. Park Place? It's a model of the famous French aeroplane which is regarded as the speediest in existence. The Bleriot has a record of 5¼ miles in 6 minutes, which was made by Claud Graham White. John B. Moisant made his famous trip from Belmont Park aviation field, Long Island, around the Statue of Liberty and George Chaves successfully crossed the Alps in the Bleriot, but was killed in making a bad landing.

This model was made and loaned to the Ball shoe store by the Regal Shoe Co., and it is well worth a close investigation.

Leather Prices Jump Again

Trust Creates Artificial Scarcity by Closing Tanneries

You and I and the other plain people of this country are not paying enough for our shoes, it seems.

The Leather Trust needs the money more than we do—so the shoe wearers of America have got to come across with the higher price.

Shoe manufacturers will tell you that there is a "shortage of leather."

What they may not tell you is that the Leather Trust created this "shortage" by deliberately shutting down its tanneries and throwing thousands of its employes out of work in midwinter, with the sole object of boosting the price of leather!

Now, the higher price would be hard enough on the shoe buyer—even if the quality of the shoes justified it.

As a shoe wearer you know that the average shoe is **not** worth its price—or anywhere near it.

The clerk, the merchant, the farmer, the mechanic finds his soles giving away long before their time—the uppers cracking and pulling away from the soles—the leather losing its finish, its softness, its elasticity.

The crying evil in the shoe situation to-day is the influence of **the Leather Trust** on the quality and cost of leather.

Facts that the Leather Trust Will Never Tell You

These are facts that the average shoe manufacturer does not **dare** to tell you.

It's only when an independent newspaper publishes this inside information **in the interests of its readers** that you learn the real truth and the whole truth.

The American shoe industry is in the grip of the Leather Trust.

There is only one shoe manufacturing concern in the United States that can put what they know to be honest leather into their shoes.

They can do this because they own and operate their tanneries independent of the Leather Trust.

The name of that concern is Endicott, Johnson & Co. Their tanneries and factories are located at Endicott, N. Y.

Back in 1893 H. B. Endicott and Geo. F. Johnson formed a partnership and started to manufacture shoes.

Then the leather began to show bad qualities. The Leather Trust began to starve the leather in tanning and finishing—instead of using the slower and more expensive processes that give to leather its wearing qualities.

Cheap Processes in Trust Tanneries

"Processes" and short cuts crept in all along the line. Hemlock used in place of good oak tan bark. Chemical tannages that load up the weight of the leather—**all sole leather is sold by weight.**

These conditions have existed for years in Trust tanneries—the situation is getting worse instead of better. Only recently, Dr. Wiley, the Government chemist, declared there should be a law like the Pure Food Law to prevent tanners from using adulterants in their "processes."

Various cheap adulterants are used in large quantities by the Leather Trust to "weight" the leather—it looks "full" and "plump," but is really "brashy" and rapidly breaks up under wear.

Endicott, Johnson & Co. refused to put that kind of leather into their shoes.

Breaking Grip of Leather Trust

So Endicott and Johnson built their own tanneries. Today they tan every pound of leather they put into their shoes.

They tan every batch of hides for a definite kind of shoe, and perfect it in the tanning and finishing for the service it is to give—an obvious advantage in the working qualities of the leather and the durability of the shoes.

Their "Forest Oak" is honest old-fashioned straight oak tanned sole leather.

Their "Kromelk" is the first and only **chrome-tanned** sole leather to be perfected and put to practical and satisfactory service. It is the most durable sole leather ever made—weather proof, heat proof, all but wear proof.

This leather has been imitated largely since it proved so successful—but it cannot be duplicated because it is the exclusive property of Endicott, Johnson & Co.

Endicott, Johnson & Co.'s tannages of calf skin and chrome-tanned upper leather are as far ahead of commercial leathers as their "Forest Oak" and "Kromelk" are ahead of commercial soles.

Extortionate Profits Saved

Endicott, Johnson & Co. find it perfectly feasible to produce a dependable, long-wearing shoe and sell it at the price that the average man wants to pay for his shoes.

Buying their hides in the open markets of the world, and operating their own tanneries, they cut three profits out of the cost of making the shoes—the profits of the Hidé Trust, the Leather Trust and the Leather Jobber.

Then they cut out the Shoe Jobber's profit—selling **direct** to your home shoe dealer and 30,000 other retailers in this country.

Thanks to this "hide to retailer" policy—Endicott, Johnson & Co. can save you 50 cents to $1.00 on every pair of shoes you buy.

This policy—and its service to the shoe wearer—has made them the largest shoe manufacturers in the world.

Endicott, Johnson & Co. have the most expert staff of shoe designers in the trade. And style in an Endicott-Johnson shoe means something—the real leather is back of the style. The shoe is pliable—yet firm and solid. It holds its shape, its fit, its finish.

You can buy Endicott-Johnson shoes for men, women and children—shoes for business wear, work shoes, dress shoes, school shoes for boys and girls.

ENDWELL—the Independent Shoe

The most popular shoe for general service is their ENDWELL (Goodyear Welt)—a dress and business shoe that sells at $3.00, $3.50 and $4.00.

Endicott, Johnson & Co. make lines that sell for more money—and still other lines at a lower price.

You can have your choice of Shoe or Oxford—Lace and Button—all the fashionable lasts—any width of toe—all the colors of leather.

And the way those shoes wear will be a revelation to you.

Remember the name. **You will find it** stamped on the shoe—

ENDWELL

THE REPUTATION

We are enjoying for selling the best Clothing in Newark, is being built on three points of excelence — namely: Quality, Style and Price. HIGH QUALITY FABRIC and STYLE are two distinct requisites, but are of little value alone, for a suit made of inferior cloth will not hold a stylish cut, and high-grade fabric loses half its worth if poorly tailored. PRICE is an easy thing to determine if made consistent with quality.
